

# B6 SMART II

## BREWING SYSTEM MACHINE

---

# B6 SMART II BULK BREWING MACHINE

## Special Functions

- 01 Touch Screen Panel**  
User-friendly touch screen panel can set different infusion times for different materials up to 8 different types.
- 02 3 Brewing Modes**  
A. Multi-Section Infusion with One Water Outflow:  
Set temperature, infusion time, and water volume in multi-sections. The tea will dispense when the whole brewing process is complete.  
B. Multi-Section Infusion with Multi-Section Water Outflow:  
Set temperature, infusion time, and water volume in multi-sections. The tea will dispense when each brewing section is complete.  
C. Prolonged Infusion:  
Set temperature, infusion time, and water volume in multi-sections. After the whole brewing process is complete, the tea will be infused for an extended period of time before it dispenses from the machine.
- 03 PID Temperature Controls**  
Precise temperature controls ensure each type of tea is brewed to the perfect temperature to extract the true essence.
- 04 Electronic Lid Opening**  
Electronically controlled lid opening makes the machine operation safe and easy.
- 05 Multiple Forms of Materials**  
Suit for brewing different forms of materials no matter ground tea, original tea leaf, tea bag, chinese herbs, Herbal tea, or coffee.
- 06 Automatic Cleaning**  
Quick and thorough automatic machine cleaning with just one touch on the screen panel.
- 07 Smart Settings**  
A. Password Setting  
B. SD Card Memory Storage  
C. Auto Failure Detection  
D. Emergency Safety Protection  
E. Screen Saver Mode  
F. Time Setting
- 08 Steam Tea Blending Function**  
Combining with the multi-infusion function, the patent steam blending design can extract the full aroma and aftertaste of tea.

## Features

The B6 SMART II can be set to brew 8 different materials in total. Dual boiler design and quick temperature control can satisfy all brewing needs. With three different brewing modes combining with the use of different materials, it allows for unlimited new drink development ideas. SD card memory storage makes it easy for chain stores to manage.

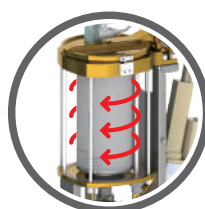

**Electronic Lid Opening**

**Smart Touch Screen Panel**

**Multiple Forms of Material**

**Steam Tea Blending Function**

**Quick Temperature Switch**

## Specification

Model	Brewing System	Boiler Volume	Watts	Voltage	Hertz	Ampere	Weight	Dimension (cm)
B6 SMART II	3L	7L*1 4L*1	4,100 W	220/240 Vac	50/60 Hz	19 A	58.5 kg	W : 44 / D : 74 / H : 90
