GT1 / GC1 Special Functions

- 01 Under Counter Design (All Series)**
With a modern design-streamline appearance; The Under Counter Design not only makes the drink making process transparent but also eliminates barriers between the arista and customer. The customer does not only taste the perfectly made beverage, but can also enjoy the human interaction.
- 02 Stainless Steel Boiler (All Series)**
The stainless steel boiler helps maintain the temperature and quality of the water, and ensures sanitary conditions.
- 03 Energy Saving (All Series)**
With Low wattage, saves energy and electricity.
- 04 Automatic Cleaning (All Series)**
An Independent auto-cleaning function makes cleaning and maintaining the machine easy.
- 05 Keyboard Panel with Precise Temperature Controls (All Series)**
Multiple temperature controls allow for precise temperature monitoring when brewing different types of materials. In combination with the combination with the multi-infusion function, each machine can have up to 10 infusion sections and an extract tea with varying degrees of concentration.
- 06 Multiple Forms of Materials (GT1/GC1)**
Various types of drinks can be made using the machine, such as traditional Chinese tea, herbal tea, fruit tea, Chinese Medicine and coffee. The machine provides unlimited combinations of drink options for the baristas to make.
- 07 Patented Adjustable Tea Portafilter (GT1)**
Adjustable volume and pressure inside the portafilter allows for the use of various forms of materials. Tea Portafilters can be used with original tea leaf, loose tea and different types of tea bags.
- 08 Professional Patented Coffee Pod Portafilter (GC1)**
Choose from patented coffee pod portafilter, bottomless coffee portafilter or traditional coffee portafilter.

GT1 / GC1 Specification

Model	Brewing System	Boiler Volume	Voltage	Watts	Ampere	Weight	Dimension (cm)
Single Group Head Teapresso Machine	1 Tea	6L*1	220/240 Vac	2,700W	12 A	50 kg	A:51 / B:49 / C:40 / D:44
Single Group Head Espresso Machine	1 Coffee	6L*1	220/240 Vac	2,500W	11 A	50 kg	

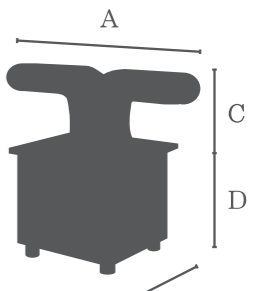

*Detailed specifications will be shown on the PI/Machine Color

GT2 / GC2 / GTC Special Functions

- 01 Stainless Steel Boiler (All Series)**
Stainless steel boiler helps maintain the temperature and quality of the water, and ensures sanitary conditions.
- 02 Multiple forms of Materials (All Series)**
Various drink options depending on the chosen portafilter, for example grounded coffee, coffee pod, grounded tea, original tea leaf and tea bag.
- 03 Electronic Temperature Control and Multi-section Design (All Series)**
Easily control the infusion time, water outlet volume and temperature of different materials to perfectly brew a cup of coffee (tea); Four buttons suitable for four different material settings.
- 04 Multi-Patented Portafilters (GT2/GTC)**
Adjustable volume and pressure inside the portafilter allows for the use of various forms of materials. Accessories include coffee pod portafilter, bottomless coffee portafilter, traditional coffee portafilter and tea portafilter.
- 05 Uniquely Patented (GTC)**
The unique combination of Teapresso and Espresso in one machine helps bring diversity to customers' menus.
- 06 Automatic Cleaning (All Series)**
Independent auto-cleaning function makes cleaning and maintaining the machine easy.
- 07 All in one (GTC)**
Hot Water, Steam, Tea and Coffee all in one machine.

GT2 / GC2 / GTC Specification

Model	Brewing System	Boiler Volume	Voltage	Watts	Ampere	Weight	Dimension (cm)
