

LION SERIES ESPRESSO MACHINE & TEA&ESPRESSO MACHINE

Special Functions

- 01 Keyboard Panel**
Multiple temperature control allows for precise temperature monitoring when brewing different types of drinks. In combination with the multi-infusion function, each machine can extract tea and coffee with varying degrees of concentration to satisfy customers' differing tastes.

06 Professional Patented Portafilters
Choose from patented coffee pod portafilter, bottomless coffee portafilter or traditional coffee portafilter.
- 02 Multiple forms of Materials**
Various drink options depending on the chosen portafilter, for example grounded coffee, coffee pod, grounded tea, original tea leaf and tea bag.

07 Patented Adjustable Tea Portafilter
Adjustable volume and pressure inside the portafilter allows for the use of various forms of materials. Tea Portafilters can be used with original tea leaf, loose tea and different types of tea bags.
- 03 Stainless Steel Boiler**
Stainless steel boiler helps maintain the temperature and quality of the water, and ensures sanitary conditions.

08 Multi-boiler Preheating and Heat Cycle System
Patent design ensures water flow endurance and temperature stability.
- 04 Multiple Forms of Drinks**
Various types of drinks can be made using the machine, such as traditional Chinese tea, herbal tea, fruit tea, Chinese Medicine and coffee. The machine provides unlimited combinations of drink options for the baristas to make.

09 Uniquely Patented
The unique combination of Teapresso and Espresso in one machine helps bring diversity to customers' menus.
- 05 Automatic Cleaning**
The separate independent auto-cleaning function makes cleaning and maintaining the machine easy.

10 Minimalist Design
Combining minimal design, metallic texture and diamond black side panels to create a unique style.
